Odoo SaaS

Odoo SaaS (Software as a Service) is a model for the distribution of software where customers access the software through the Internet. In a few seconds, and a couple of clicks, your cloud instance will be ready to use anywhere and anytime.

Odoo.sh

Odoo.sh is a full-stack Platform as a Service (PaaS) hosting option available on the cloud and out-of-the-box. It allows for enhanced development and customization while Odoo manages the infrastructure.

On Premise

With On Premise option, you can deploy Odoo on your own server and set your hosting infrastructure yourself. We only recommend this option for customers with advanced technical knowledge.
